

## REBS Participation in the Sonoma County Home & Garden Show

The Sonoma County Home & Garden Show was a 2-day regional consumer show. The event was held on March 18 and 19, 2023, in Santa Rosa, CA, United States. The venue of this event is Sonoma County Fairgrounds and frequency is annually. It is open to the general public. Sonoma County Home & Garden Show focuses on Home & Garden consumer products.

REBS longtime member Art Kopecky chaired the event as he does every year. This year, Art organized about 10 REBS members in serving as exhibitors and docents. Several tables were assembled to display member bonsai trees. The Sonoma County Home & Garden is an excellent opportunity for REBS to show off members' bonsai trees and to accomplish the club's mission of educating the general public on the living art of bonsai.

The first year of the Home & Garden show was 1989. The exhibit space is 86,000 square feet. The number of exhibitors was 76.

The following display photographs were taken by REBS member Diane Matzen.
