

American Bonsai Association, Sacramento Show, April 8 and 9, 2023

By George Haas

I attended the American Bonsai Association, Sacramento show on April 8, 2023, held at the McKinley Park Garden Center, 3330 McKinley Blvd, Sacramento, California. A large crowd was in attendance.

This is a photographic study of how the club members established formal two-point displays, consisting of a primary bonsai tree and accent plant. I was especially interested in the accent plants. Each accent or companion plant was unique and creative, using various types of pots and containers.

First, these photos depict the formal two-point display.

These photos depict various accent plants and containers.

Although I don't know the names of the various plants, they all reflect the current season of spring.

Finally, this photo depicts an extraordinary and most creative display, a real eye catcher for the crowd of attendees.
